Projects:

Projects are listed below:

Sentiment-Driven Clothing Brand Recommendation System | Aug 2026 – Sep 2026
by using BERT and deployed as Flask web app **(FYP)**.

AI Shopping Assistant – Royal XPreme | Aug 2026 – Sep 2026
Multi-agent AI chatbot that takes a customer from "Hi" to a confirmed order.

- Built catalog, checkout and order-summary agents with Agent Development Kit (ADK); prices and stock come from a live database
- Validated names, emails, country-specific phone numbers and addresses in code
- Used database transactions to prevent overselling, plus Row Level Security; 59 automated tests

AI Restaurant Reservation Assistant | Apr 2026 – May 2026
n8n AI agent that handles new bookings, updates, cancellations and customer FAQs.

- Synced reservations automatically with Google Calendar and Google Sheets
- Answered FAQs with RAG using a Supabase vector store and OpenAI embeddings

Certifications:

- Python Programing (Data Mining & Machine Learning) **NAVTTAC**
- AI Automation & Agentic AI Course **(Tech7 Academy, Lahore)**
- GSEA Certified (Math Contest 2017)
- TechXpo-2024 certified
- Prepare Data for Exploration(Coursera)

Reference:

- Furnished upon request.

- Verified customers before any change, with business rules for reliable operations

Lead Generator – NovisGrid Solutions | May 2026 - June 2026
Lead scraping dashboard that finds, filters and exports business leads.

- 4-step scraper wizard: target niche and location, choose data fields, settings, review
- Removes duplicate leads, runs scrapers on a schedule and tracks jobs live
- One-click CSV export, plus team access with admin and member roles

Sales CRM – NovisGrid Solutions | June 2026 - Aug 2026
CRM for managing leads, deals and multi-channel outreach.

- Pipeline tracking with editable stages, deal values and follow-up reminders
- Outreach by email, WhatsApp, Facebook, Instagram and LinkedIn using reusable templates
- Weekly reports with lost-deal reasons, user roles and CSV import/export
